Fee Schedule

September 2026

Table of Contents

- Definitions
- Section A — Transaction Fees
- Section B — Market Data Fees
- Section C — Connectivity Fees
- Section D — Membership Fees
- Section E — Additional Fees
- Section F — Lead Market Maker Program

Definitions

For purposes of assessing fees, the following definitions shall serve as guidance. Unless otherwise specified, capitalized terms used in this Fee Schedule are defined as set forth in the TXSE Rules. Rebates and fees are listed per share unless otherwise noted.

- **“Drop Copy Port”** means a logical port providing real-time order activity, including execution reports and trade cancel/correct messages, for orders entered through other ports.
- **“Logical Connectivity”** means a session(s) through which a Member may submit orders, receive order activity, or otherwise interact with the System, as described in the TXSE Rules. Logical Connectivity includes Order Entry Ports and Drop Copy Ports for both production and the Test Environment, sessions for TXSE’s proprietary market data Multicast Service, as well as Test Environment sessions.
- **“Member”** shall have the meaning set forth in TXSE Rule 1.005, namely, any registered broker or dealer that has been admitted to membership in the Exchange. A Member will have the status of a “member” of the Exchange as that term is defined in Section 3(a)(3) of the Act. Membership may be granted to a sole proprietor, partnership, corporation, limited liability company or other organization which is a registered broker or dealer pursuant to Section 15 of the Act and which has been approved by the Exchange.
- **“Order Entry Port”** means a logical port that allows Users to submit orders, cancellations and quotes to the System.
- **“Physical Connectivity”** means physical network connectivity to the Exchange’s primary facility or disaster recovery facility, provided per 10 Gigabit connection.
- **“TXSE BALE”** is the Exchange data product that offers both top of book quotations and execution information based on equity orders entered into the System.
- **“TXSE” / “Exchange”** mean Texas Stock Exchange LLC, a registered national securities exchange.
- **“TXSE FEED”** is the Exchange data product that contains all displayed orders for listed securities trading on the Exchange, order executions, order cancellations, order modifications, order identification numbers and administrative messages.
- **“Test Environment”** means the Exchange’s user acceptance testing environment.
- **“System”** means the electronic communications and trading facility designated by the Board through which securities orders of Users are consolidated for ranking and execution.
- **“User”** shall have the meaning set forth in TXSE Rule 1.005, namely, any Member or Sponsored Participant who is authorized to obtain access to the System pursuant to TXSE Rule 11.003.

Section A — Transaction Fees

TXSE Members are charged fees or provided rebates for transactions executed on the Exchange according to the schedule below. Fees and rebates are stated per share for securities priced at or above \$1.00 and as a percentage of the total dollar value (“TDV”) of the transaction for securities priced below \$1.00.

Description	Securities at or above \$1.00	Securities below \$1.00
Add displayed liquidity	(\$0.0031)	(0.15% of TDV)
Remove displayed liquidity	\$0.0030	0.15% of TDV
Add non-displayed liquidity	\$0.0002	0.05% of TDV
Remove non-displayed liquidity	\$0.0002	0.05% of TDV

Notes to Transaction Fees

- Rebates are indicated by parentheses ().
- All references to “per share” mean “per share executed.”

Section B — Market Data Fees

TXSE will offer the following proprietary market data products.

Data Product	Monthly Fee
TXSE BALE (Top of Book and Last Sale Subscription) — Internal Distribution	\$750 †
TXSE BALE (Top of Book and Last Sale Subscription) — External Distribution	\$2,000 †
TXSE FEED (Depth of Book Subscription) — Internal Distribution	\$1,500 †
TXSE FEED (Depth of Book Subscription) — External Distribution	\$2,500 †

† Waived through December 31, 2026.

Notes to Market Data Fees

- “Internal Distribution” means receipt of the data product and distribution to one or more Users within the recipient’s own entity or affiliated entity. “External Distribution” means receipt of the data product and distribution to a third party or one or more Users outside the recipient’s entity or affiliated entity.
- Market Data Fees will be assessed in any month in which the Member is credentialed and will be pro-rated for partial-month credentialing based on the number of trading days credentialed divided by the total number of trading days in such month.
- A Multicast Service per Data Product is required for all Market Data subscribers (see Section C).

Section C — Connectivity Fees

Connectivity Fees consist of fees for physical network connectivity to the Exchange's primary facility and disaster recovery facility, and fees for logical connectivity used to interact with the System.

Physical Connectivity

Physical Connectivity	Monthly Fee
10 Gb Physical Connectivity — Primary Facility	\$6,000
10 Gb Physical Connectivity — Disaster Recovery Facility	\$3,000

Logical Connectivity

Type	Monthly Fee
Order Entry Port	\$450 / port
Drop Copy Port	\$450 / port
Multicast FEED Service	\$450
Multicast BALE Service	\$450

Notes to Connectivity Fees

- TXSE does not charge for: (1) Order Entry Ports or Drop Copy Ports in the disaster recovery facility, or (2) any Test Environment logical connectivity.
- Connectivity Fees will be assessed in any month in which the Member is credentialed and will be pro-rated for partial-month credentialing based on the number of trading days credentialed divided by the total number of trading days in such month.

Section D — Membership Fees

TXSE assesses a monthly Membership Fee for each month a Member is active as set forth below.

Category	Monthly Fee
Membership Fee	\$200 †

† Waived through December 31, 2026.

Notes to Membership Fees

- The Membership Fee is assessed to each active Member at the close of business on the first day of each month.
- If a Member is pending a voluntary termination of rights as a Member pursuant to TXSE Rule 2.008 prior to such fee being assessed and the Member does not utilize the facilities of the Exchange while such voluntary termination of rights is pending, then the Member will not be obligated to pay the monthly Membership Fee.
- TXSE does not return pro-rated Membership Fees if a membership is not active for an entire month.

Section E — Additional Fees

Certain additional fees, dues, assessments, and other charges of the Exchange — including the Regulatory Transaction Fee collected to fund the Exchange's obligations to the Commission under Section 31 of the Securities Exchange Act of 1934 — are set forth in Chapter 15 of the TXSE Rulebook.

Regulatory Transaction Fee (TXSE Rule 15.001(b))

Under Section 31 of the Act, the Exchange must pay certain fees to the Commission. To help fund the Exchange's obligations to the Commission under Section 31, this Regulatory Transaction Fee is assessed to Members. To the extent there may be any excess monies collected under this TXSE Rule, the Exchange may retain those monies to help fund its general operating expenses. Each Member engaged in executing transactions on the Exchange shall pay, in such manner and at such times as the Exchange shall direct, a Regulatory Transaction Fee equal to (i) the rate determined by the Commission to be applicable to covered sales occurring on the Exchange in accordance with Section 31 of the Act multiplied by (ii) the Member's aggregate dollar amount of covered sales occurring on the Exchange during any computational period.

Cross-Connection Pass-Through (TXSE Rule 15.001(d))

To the extent the Exchange is charged a fee by a third party that results directly from a Member cross-connecting its trading hardware to the Exchange's System from another Trading Center's system that is located in the same data center as the Exchange, the Exchange will pass that fee on, in full and without mark-up, to the Member.

Registration and Processing Fees (TXSE Rule 15.001(e))

The fees set forth in TXSE Rule 15.001(e) (CRD registration and processing fees) will be collected and retained by FINRA via the CRD registration system for the registration of associated persons of Members that are not also FINRA members.

Pricing Disputes and Billing Errors (TXSE Rule 15.003(b) and (c))

All pricing disputes concerning fees billed by the Exchange under Rule 15.003(a) must be submitted to the Exchange in writing and must be accompanied by supporting documentation. If a Member disputes an invoice, the Exchange will not include the disputed amount in the debit if the Member has provided written notification of the dispute to the Finance Department of the Exchange by the later of the 16th business day of the month or ten (10) calendar days after the date the electronic invoice was sent to the Member, and the amount in dispute is at least \$10,000 or greater. All pricing disputes must be submitted no later than sixty calendar (60) days after receipt of a billing invoice.

All fees and rebates assessed by the Exchange prior to the three (3) full calendar months before the month in which the Exchange becomes aware of a billing error shall be considered final.

Section F — Lead Market Maker Program

Definitions

“CADV” means consolidated average daily volume calculated as the average daily volume reported for a security by all exchanges and trade reporting facilities to a consolidated transaction reporting plan excluding volume on days when the market closes early and on the Russell Reconstitution Day.

“Closing Auction Depth” means the aggregate size, expressed in notional value, of all LMM Eligible Auction Orders that are executable in the closing auction and priced within fifty basis points (0.50%) of the NBBO midpoint, as measured immediately prior to the execution of the closing auction.

“Closing Auction Reference Price” means the difference between the midpoint of the NBBO immediately prior to the closing auction and the closing auction price.

“Layered Depth” means the minimum notional value of both bids and offers within a certain percentage of the NBBO for at least 95% of the trading day.

“Maximum LMM Spread” means the time weighted average of the LMM’s displayed two-sided spread, calculated as (LMM Best Offer minus LMM Best Bid) divided by the SIP NBBO midpoint, expressed in basis points, for a trading day.

“Minimum Performance Standards” means a set of standards applicable to an LMM that may be determined from time to time by the Exchange. Such standards will vary between TXSE-listed securities depending on the price, liquidity, and volatility of the designated asset class of the security in which the LMM is registered and the applicable listing tier. Minimum Performance Standards shall be the following measurements: Maximum LMM Spread, Size Near the Inside, Layered Depth, Time at NBBO, Opening Auction Depth, Closing Auction Depth, Opening Auction Reference Price, and Closing Auction Reference Price.

“Opening Auction Depth” means the aggregate size, expressed in notional value, of all LMM Eligible Auction Orders that are executable in the opening auction and priced within 100 basis points (1.00%) of the NBBO midpoint, as measured immediately prior to the execution of the opening auction.

“Opening Auction Reference Price” means the difference between the midpoint of the NBBO immediately prior to the opening auction and the opening auction price.

“Performant LMM” means an LMM that meets a particular Minimum Performance Standard for a trading day.

“Size Near the Inside” means the average notional depth within 25 basis points of the NBBO.

“Time at NBBO” means the percentage of time during Regular Trading Hours in which the LMM maintains both a bid and offer at the NBBO with at least \$10,000 notional at each of the NBB and NBO.

LMM Daily Stipends

An LMM in a Signature Tier Security receives \$34.75 daily for each Minimum Performance Standard in which the LMM is a Performant LMM.

An LMM in a Premier Tier Security receives \$17.37 daily for each Minimum Performance Standard in which the LMM is a Performant LMM.

An LMM in a Core Tier Security receives \$16 daily where the LMM is a Performant LMM in all seven Minimum Performance Standards.
